

Shashank Shankaregowda

425-547-0422 | shashanks874pm@gmail.com | [Portfolio](#) | [LinkedIn](#)

Summary

- 3+ years of diverse experience in Full Stack and AI-driven Software Development, contributing to Android, API, and system-level applications.
- Proficient in C++, C#, JavaScript, and Python, with proven hands-on experience in Android system development, scalable API design, and AI model integration. Skilled in machine learning, computer vision, and deep learning frameworks such as PyTorch and TensorFlow, with a strong background in complex debugging, build systems, and cross-platform integration.

Experience

Software Engineer, Holiday Channel, Colorado, USA (Remote) | February 2025 – Present

- Implemented SSO (Single Sign-On) across multiple domains using Auth0 and session cookie, ensuring seamless authentication and secure session management between our sites.
- Utilized AWS Lambda, API Gateway, and S3 for serverless backend deployment and efficient data storage.
- Designed and integrated RESTful APIs for user management, product handling, and billing services, improving data consistency across systems.
- Developed a wishlist and recommendation engine integrated with user sessions, improving engagement metrics.

Software Engineer, Datalyzer International Inc, Bengaluru, India | February 2021 – July 2023

- Developed enterprise software solutions in C#, Python, Angular, and React
- Implemented data processing and analytics modules in Python to visualize and interpret real-time production data.
- Developed reusable React hooks and context providers for user authentication and API management.
- Participated in cross-platform build pipeline setup using CMake and Docker, streamlining deployment of C++ components.

Freelancing, Software Engineer, BrightChamps Pvt Ltd, Bengaluru, India | March 2021 – July 2023

- Designed web/mobile systems integrating RESTful APIs and dynamic UI components.
- Debugged low-level issues using gdb and logging frameworks, ensuring system stability across platforms.
- Contributed to AI-driven learning assistance features, leveraging NLP and recommendation algorithms to personalize student engagement.

Skills

^f implies familiar with

Programming Languages:	C++, C#, JavaScript, Python, Node.js, Java
Build Systems & Debugging:	CMake, Make, Visual Studio, GDB, Buildroot ^f
Web Technologies:	REST, HTML, Ajax, CSS3, Json, Bootstrap, Material Design ^f
Data Management:	PostgreSQL, MySQL, SQL Server, MongoDB
Testing/Debugging:	GDB, Valgrind ^f , Oscilloscope ^f , JTAG ^f , GCC, CMake, Make
AI & Machine Learning:	TensorFlow, PyTorch, OpenCV, Scikit-Learn, Keras, NLP, Computer Vision, CNNs, Flask, FastAPI
Others:	DSA, Linux, REST APIs, Git, Docker, Webpack, Postman, CI/CD Basics, Agile Methodologies

Projects

Predictive Process Quality Analyzer – Datalyzer International Inc.

- Deployed as a Dockerized microservice, allowing easy scaling and integration with existing SPC tools.
- Integrated model outputs with a React.js dashboard displaying visual alerts and KPIs for process engineers.

AI-Powered Customer Review Classifier

- Developed a Natural Language Processing (NLP) model to classify user feedback into sentiment and category labels using BERT embeddings. Implemented continuous retraining pipeline to adapt model weights based on new feedback data.

Intelligent SSO Gateway for Multi-Domain Authentication – Holiday Channel

- Built a silent authentication flow to share sessions between domains without user re-login, improving UX and reducing support tickets. and Developed diagnostic utilities to trace token lifecycle and cookie issues during local and production builds, enhancing authentication reliability.

Interactive Learning Portal – BrightChamps Pvt Ltd

- Integrated an AI recommendation engine that suggested lessons based on learning pace and quiz results. and Built a role-based access system for instructors, parents, and students with secure API-level permissions.

Education

Master of Science: Computer Science (AI track), University at Buffalo, The State University of New York, GPA: 3.6
